DETAILED ACTION

1. Claims 1-8 are pending and presented for examination.
2. Applicant's submission of references on form PTO-1449, filed 1 April 2005 and 18 January 2005, have been considered. A signed copy of each form is attached.

Allowable Subject Matter

3. Claims 1-8 are allowed.

Examiner's Amendment

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Surinder Sachar on January 3, 2007.

The application has been amended as follows:

Amend the abstract –

On line 7, delete "In S1, a contact detection start";

Delete lines 8-27 in their entirety.

Amend the claims –

Claim 4, lines 1 and 2, delete "any one of Claims 1 through 3" and insert – claim 1 --.

5. The following is an examiner's statement of reasons for allowance:

The prior arts of record fail to teach or fairly suggest a mounting apparatus and controller for such as claimed by the instant invention. The limitations of the instant claims define a mounting apparatus and a control apparatus for the mounting apparatus which enables high levels of maintenance and improvement of product quality by reliably preventing accidental contact of a

mounting part with a mounting target part while enhancing productivity. The limitations of instant claims 1 and 7 are not taught or rendered obvious when taken in context of the claims as a whole or specific to the limitations of the dependent claims, 2-6 and 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
